BIOPHARMACEUTICS & DRUG DISPOSITION
(*Biopharm. drug dispos.*)

CONTENTS

Volume 7, Issue Nos 1–6

Issue No. 1, January–February

REVIEW

Aspects of the Clinical Pharmacology of Nifedipine, a Dihydropyridine Calcium-entry Antagonist: S. R. Hamann, M. T. Piascik and R. G. McAllister, Jr 1

RESEARCH PAPERS

Effects of Phenobarbital Steady State Levels on Antipyrine Clearance and Distribution in the Rat: Y.-Y. Pei, M. Bialer and R. H. Levy 11

Acetylsalicylic Acid Metabolites in Blood and Urine after Plain and Enteric-coated Tablets: P. R. Montgomery and D. S. Sitar . . 21

Influence of Dioctyl Sodium Sulfosuccinate on the Absorption of Tetracycline: V. P. Shah, J. P. Hunt, W. R. Fairweather, V. K. Prasad and G. Knapp 27

Evaluation of Two New Megestrol Acetate Tablet Formulations in Humans: R. C. Gaver, K. A. Pittman, C. M. Reilly, P. J. Goodson, G. O. Breault and E. Fenzl 35

The Pharmacokinetics of Oral and Intravenous Prenalterol in Young, Healthy Volunteers: A. F. Clarke, D. B. Jack, M. J. Kendall and S. R. Smith 47

Comparative Pharmacokinetics of Midazolam and Loprazolam in Healthy Subjects after Oral Administration: R. Jochemsen, P. A. van Rijn, T. G. M. Hazelzet, C. J. van Boxtel and D. D. Breimer 53

The Effect of Administration of Propranolol on the Pharmacokinetics of Isoxicam: G. Caillé, L. Larivière, Y. Lacasse, M. Vézina and J. G. Besner 63

Novel Assay and Pharmacokinetics of Levamisole and *p*-Hydroxylevamisole in Human Plasma and Urine: E. Kouassi, G. Caillé, L. Léry, L. Larivière and M. Vézina 71

The Non-linear Pharmacokinetics of Prednisone and Prednisolone. I. Theoretical: J. J. Ferry, Jr and J. G. Wagner 91

Indexed or abstracted by 'Current Contents', 'Science Citation Index' and other leading Indexing/Abstracting Services

BDDID8 7 1–590 (1986)
ISSN 0142–2782

Issue No. 2, March–April

RESEARCH PAPERS

Relationship between Plasma Propranolol Concentration and Dose in Young, Healthy Volunteers: M. Dey, J. Brisson, G. Davis, R. Enever, K. Pray, B. Zaim and D. Dvornik 103

Bioavailability of Seven Furosemide Tablets in Man: A. B. Straughn, G. C. Wood, G. Raghow and M. C. Meyer 113

Use of a Limited Physiologic Model to Explain Target Toxicity of Bupivacaine as a Function of Route of Administration: D. D. Denson, G. A. Thompson and D. E. Coyle 121

The Disposition of the Local Anaesthetic, Pentacaine, in Rats and Mice: Š. Bezek, V. Ščasnár, T. Trnovec, M. Ďurišová, V. Faberová and L. Beneš 137

The Pharmacokinetics of Exaprolol and Propranolol in Rats with Interrupted Enterohepatic Circulation: O. Motheová, Š. Bezek, M. Ďurišová, V. Faberová, M. Zemánek, K. Mišánikova and T. Trnovec 151

Intra- and Intersubject Variation of Erythromycin Absorption from Single-Unit and Multiple-Unit Enteric-Coated products: C. Graffner, K. Josefsson and O. Stockman 163

The Disposition of Pyrimethamine Base and Pyrimethamine Pamoate in the Mouse: Effect of Route of Administration: M. D. Coleman, G. W. Mihaly, G. Edwards, R. E. Howells and A. M. Breckenridge 173

A Pharmacokinetic Approach to the Establishment of Biopharmaceutic Characteristics of Different Acetylsalicyclic Acid Formulations in Man: M. Raghoebar, F. Vrancx and C. A. M. van Ginneken . 183

Brain Uptake of Labelled Adiphenine in Rats: J. Michelot, M. F. Moreau, A. Veyre, P. Labarre and G. Meyniel 197

SHORT COMMUNICATIONS

The Effects of Low and Moderate Doses of Alcohol on the Pharmacokinetic Parameters of Zopiclone: L. Larivière, G. Caillé and R. Elie 207

Calculation of Fraction Bound in Equilibrium Dialysis with Special Reference to Drug Losses by Decomposition and Absorption: O. Y-P. Hu and S. H. Curry 211

Issue No. 3, May–June

RESEARCH PAPERS

Pharmacokinetics and Bioavailability of the Anti-Emetic Agent Bromopride: R. R. Brodie, L. F. Chasseaud, A. Darragh, R. F. Lambe, L. Rooney and T. Taylor 215

Bioavailability in Man of Atenolol and Chlorthalidone from a Combination Formulation: J. McAinsh, B. H. Holmes, T. J. Fitzsimons and J. Young 223

The Absorption of Propanolol from the Jejunum in Rats with Adjuvent-Induced Arthritis: B. J. Key, C. A. Mucklow and H. Bishop . 233

Pharmacokinetics, Metabolism and Renal Excretion of Sulfatroxazole and its 5-Hydroxy- and N_4-Acetyl-Metabolites in Man: T. B. Vree, Y. A. Hekster, M. W. Tijhuis, E. F. S. Termond and J. F. M. Nouws 239

Limitations of the MANOVA of Statistical Moments in Bioequivalence Trials of Drugs with Slow Elimination Rate: A Study with Spironolactone: A. Concheiro, M. Llabres, R. Martinez and J. L. Vila 253

Pharmacokinetics of Orally Administered Hexobarbital in Plasma and Saliva of Healthy Subjects: M. van der Graaff, N. P. E. Vermeulen, P. Heij, J. K. Boeijinga and D. D. Breimer 265

Bioavailability of Cyanamide in Fasted and Unfasted Rats: R. Obach, C. Valenti, J. Valles, J. M. Valles and J. Domenech . . . 273

Bioequivalency and Dose Proportionality of Three Tableted Promethazine Products: R. Zaman, I. L. Honigberg, G. E. Francisco, J. A. Kotzan, J. T. Steward, W. J. Brown, V. P. Shah and F. R. Pelsor 281

Rotary Pursuit, a Measure of Human Performance, and Plasma Concentrations of Promethazine: J. A. Kotzan, I. L. Honigberg, G. E. Francisco, R. Zaman, J. T. Stewart and W. J. Brown . 293

SHORT COMMUNICATIONS

The Effect of Food and Time of Administration on the Absorption of Diethylamine Chromocarbe: J.-M. Aiache, M. Faurie, Y. Sibaud, J.-P. Kaftelip and S. Aiache 301

pH Shift During Equilibrium Dialysis: C. Y. Lui and W. L. Chiou . 309

Issue No. 4, July–August

REVIEW ARTICLE

Importance of Analytical Methods in Pharmacokinetic and Drug Metabolism Studies: J. Hirtz 315

RESEARCH PAPERS

Plasma Concentrations and Relative Bioavailability of Naftidrofuryl from Different Salt Forms: L. M. Walmsley, T. Taylor, P. A. Wilkinson, R. R. Brodie, L. F. Chasseaud, A. Alun-Jones and J. O. Hunter 327

Ceforanide Pharmacokinetics in Haemodialysis: The Effect of Ultrafiltration: J. M. Lanao, C. R. de Prada, A. Dominguez-Gil, J. M. Tabernero, J. Martín and J. R. Gómez 335

Renal and Non-renal Clearances of Iothalamate: T. Prueksaritanont, C. Y. Lui, M. G. Lee and W. L. Chiou 347

Inhibition of Tumor Cell Growth *in vitro* and *in vivo* by 2-Methyl 9-Hydroxyellipticinium Entrapped within Phospholipid Vesicles: A. M. Sautereau, S. Cros and J. F. Tocanne 357

Modelling the Pharmacokinetics and Pharmacodynamics of Trimazosin: A. W. Kelman, P. A. Meredith, H. L. Elliott and J. L. Reid 373

Characterization of Two Metabolites of Prethcamide by Gas Chromatography and Mass Spectrometry: F. T. Delbeke, M. Debackere, J. A. A. Jonckheere and A. P. de Leenheer 389

SHORT COMMUNICATIONS

Delay of Cardiac and Retinal Effects of Digoxin Following a Rapidly Attained Serum Concentration Plateau: M. Weiss, W. Sziegoleit, H. Fuhrmeister, A. Fahr, M. Tost and W. Förster 397

Pharmacokinetics of Oral 500-mg Penicillamine: Effect of Antacids on Absorption: A. Ifan and P. G. Welling 401

Issue No. 5, September–October

RESEARCH PAPERS

Pharmacokinetics of Insulin Following Intravenous and Subcutaneous Administration in Canines: W. R. Ravis, C. Comerci and V. K. Ganjam 407

The Effect of Activated Charcoal on Mouse Sleep Times Induced by Intravenously Administered Hypnotics: L. J. Adler, D. H. Waters and P. R. Gwilt 421

Comparative Physiological Disposition of Two Nitrofuran Antimicrobial Agents: J. P. Labaune, J. P. Moreau and R. Byrne 431

The Influence of Sucralfate on Ibuprofen Absorption in Healthy Adult Males: A. L. Anaya, M. Mayersohn, K. A. Conrad and D. C. Dimmitt 443

Improving the Ocular Absorption of Phenylephrine: D. S. Chien and R. D. Schoenwald 453

Absorption of Iothalamate after Oral Administration and Absorption Enhancement by Amino Acids in Dogs and Rats: T. Prueksaritanont, M. G. Lee, F.-H. Hsu and W. L. Chiou . . . 463

Time-dependent Inhibition of Theophylline Elimination by Erythromycin Stearate: G. I. Adebayo, M. O. Adewumi and A. F. B. Mabadeje 479

SHORT COMMUNICATIONS

Pharmacokinetics of Drugs in Blood V: Aberrant Blood and Plasma Concentration Profiles of Methotrexate During Intravenous Infusion: M. G. Lee, C. Y. Lui and W. L. Chiou . . . 487

Relation between Absorption Half-life Values of Four Novel Sustained-release Dosage Forms of Valproic Acid in Dogs and Humans: M. Bialer, M. Friedman and J. Dubrovsky 495

Issue No. 6, November–December

REVIEW

Pharmacokinetics of the Thiazide Diuretics: P. G. Welling . . 501

RESEARCH PAPERS

Effect of Intravenous Infusion Time on the Pharmacokinetics and Pharmacodynamics of the Same Total Dose of Furosemide: M. G. Lee, T. Li and W. L. Chiou 537

Preparation and Disposition of Asialofetuin-labelled Liposome: S. Tsuchiya, Y. Aramaki, T. Hara, K. Hosoi and A. Okada . . 549

Plasma Concentration and Bioavailability of Propanolol by Oral, Rectal and Intravenous Administration in Man: E. Cid, F. Mella, L. Lucchini, M. Carcamo and J. Monasterio 559

Mechanism for the Interaction Between Triazolam and Cimetidine: S. R. Cox, P. D. Kroboth, P. H. Anderson and R. B. Smith . . 567

SHORT COMMUNICATION

The Relationship Between Drug Input and Mean Residence Time in the Body: M. Bialer, Z. M. Look, B. M. Silber and A. Yacobi . 577
